

Læringsmål:

- Forretningsmodeller og Strategier

Litteratur:

Skriver kap. 2

Semesterplan

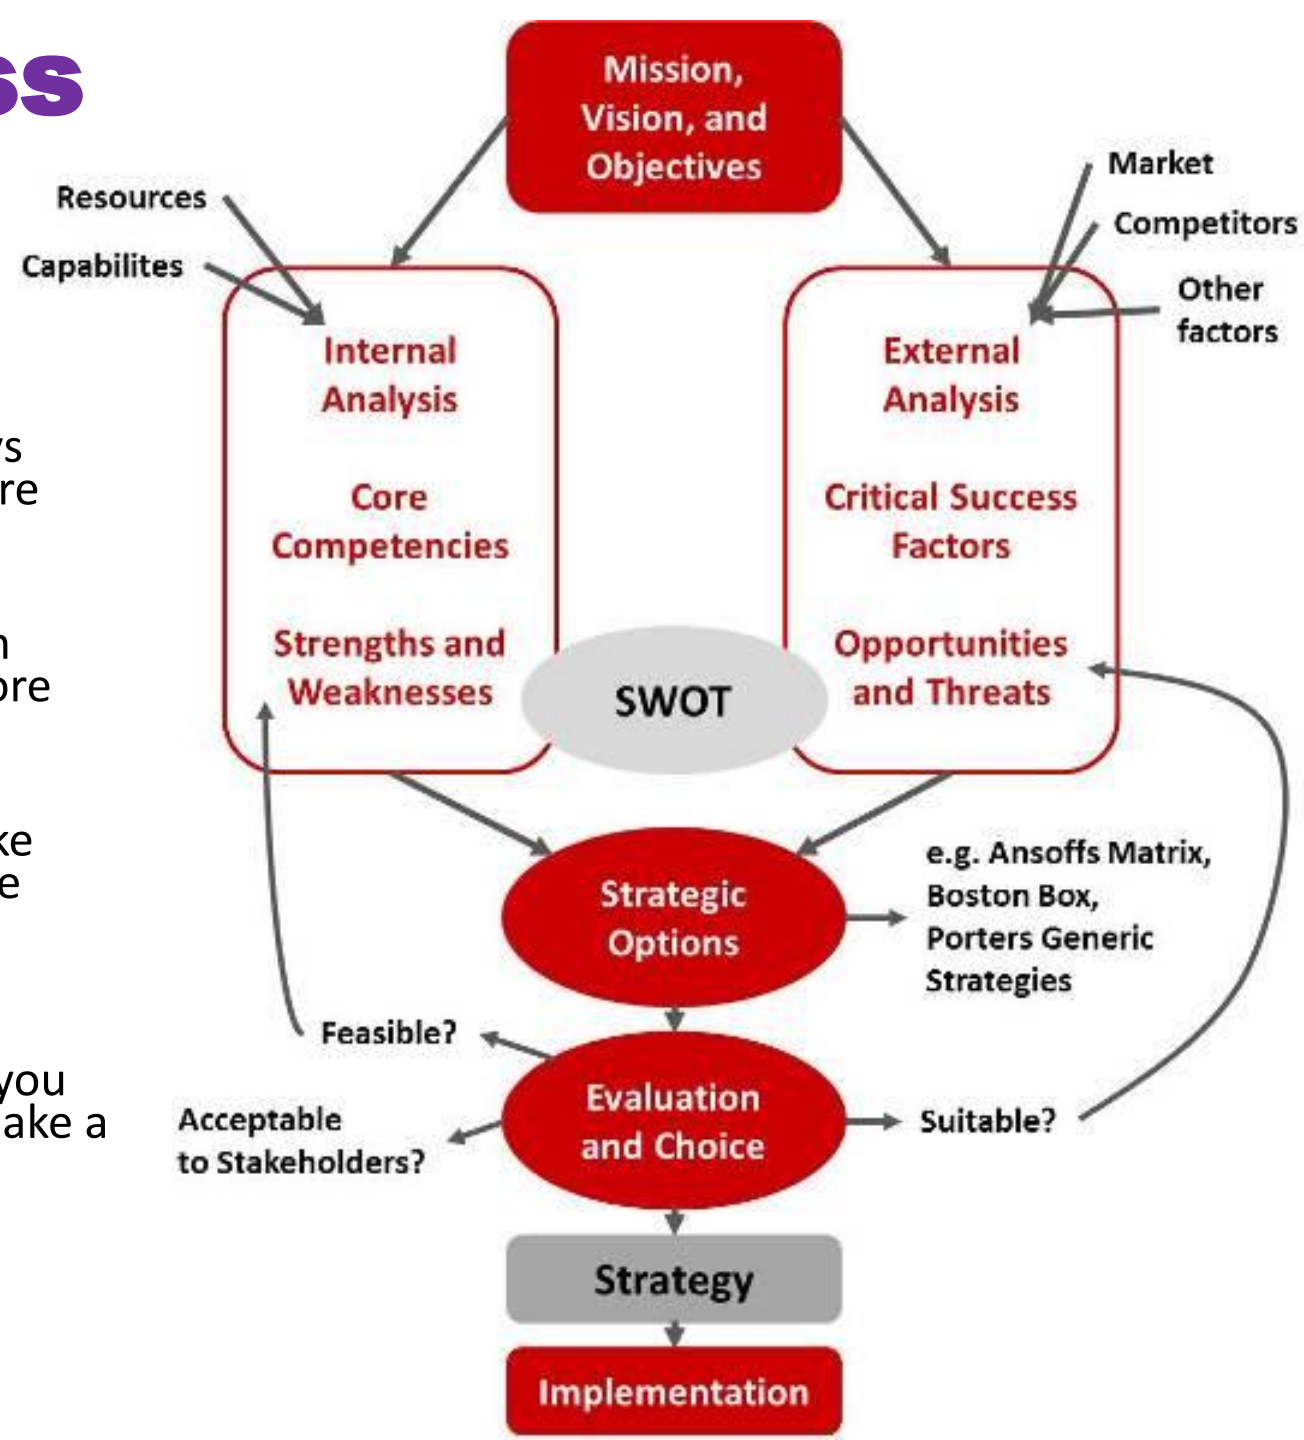

- Introduktion/ Organisation og omverden/ Organisationsteorier
- Analyseredskaber og projekt/ Interessentanalyse
- Aktivitetsdiagrammer
- Forretninggrundlag/ Strategi
- Organisationsformer/ Risk management
- Kommunikation
- Individet og organisationen
- Teams
- Ledelse
- Entreprenørskab, innovation og kultur
- Projektledelse

The Strategic Process

- Where are we?

An existing business evaluating or redefining ourselves?
Or are we at the very first step, of going in to business?

- Consider this: The toplevel in an organization will always have to re-define the organization within these three core topics: **Mission, Vision** and **Values**.
- These topics are what dreams are made of: Before even thinking about starting your own business, this is the core you have to define!
- Then comes the **Goals**, and here you would use tools like **swot- and stakeholder analysis** and for the competitive examine you could use **Porters five forces**. And when defining the goals Remember to be **S.M.A.R.T**
- And then, after you identified your product or services, you would come to the business-model. Now it is time to make a model of your business. You could use a **Canvas businessmodel** for that part of our analysis.

Strategic planning

Strategic planning is an organization's process of defining its strategy, or direction!

Before the Strategic Planning you got to know, define or redefine the three essential topics!

VALUES

MISSION

VISION

MISSION

OUR MISSION
charts our course

OUR VISION
steers us

OUR VALUES
anchor us

A mission is a statement of the reason or **reasons for the existence** of the organization, the ultimate **purpose the organization serves in society**, and the boundaries within which it operates. A mission is one of the four key building blocks of an organizational plan. The other three are vision, goals, and strategy. A mission sets direction and defines the boundaries, both of which are critical to the organization's effectiveness and success.

VISION

OUR MISSION
charts our course

OUR VISION
steers us

OUR VALUES
anchor us

If the mission describes your reason for being, then the vision describes **what you want to become** or **how you want to be**. It is the “**dream**” toward which you are moving. You hear star baseball players talk about as children seeing themselves on the pitcher’s mound or at the plate in the World Series or football players envisioning playing quarterback in the Super Bowl. Those are visions.

VALUES

OUR MISSION
charts our course

OUR VISION
steers us

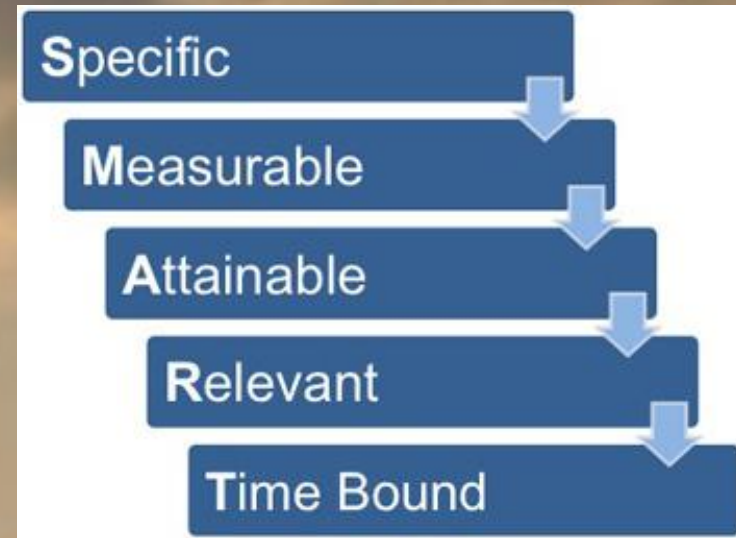

OUR VALUES
anchor us

Values include **beliefs** and **attitudes** that guide **behavior and relationships** with others. They are often unspoken as well as difficult to universally define. For example, one value a team might choose is “respect.” You can look up the definition in the dictionary, but the key question is how the team demonstrates respect for other members of the team and for those outside the team with whom they deal.

Goals

– S.M.A.R.T

Goals are Important

Goals can be communicated through the organization, they give a direction, and goals can (or should be defined to) be monitored.

Goals can be tricky: Often they have to be found in the massive flow within an organization!

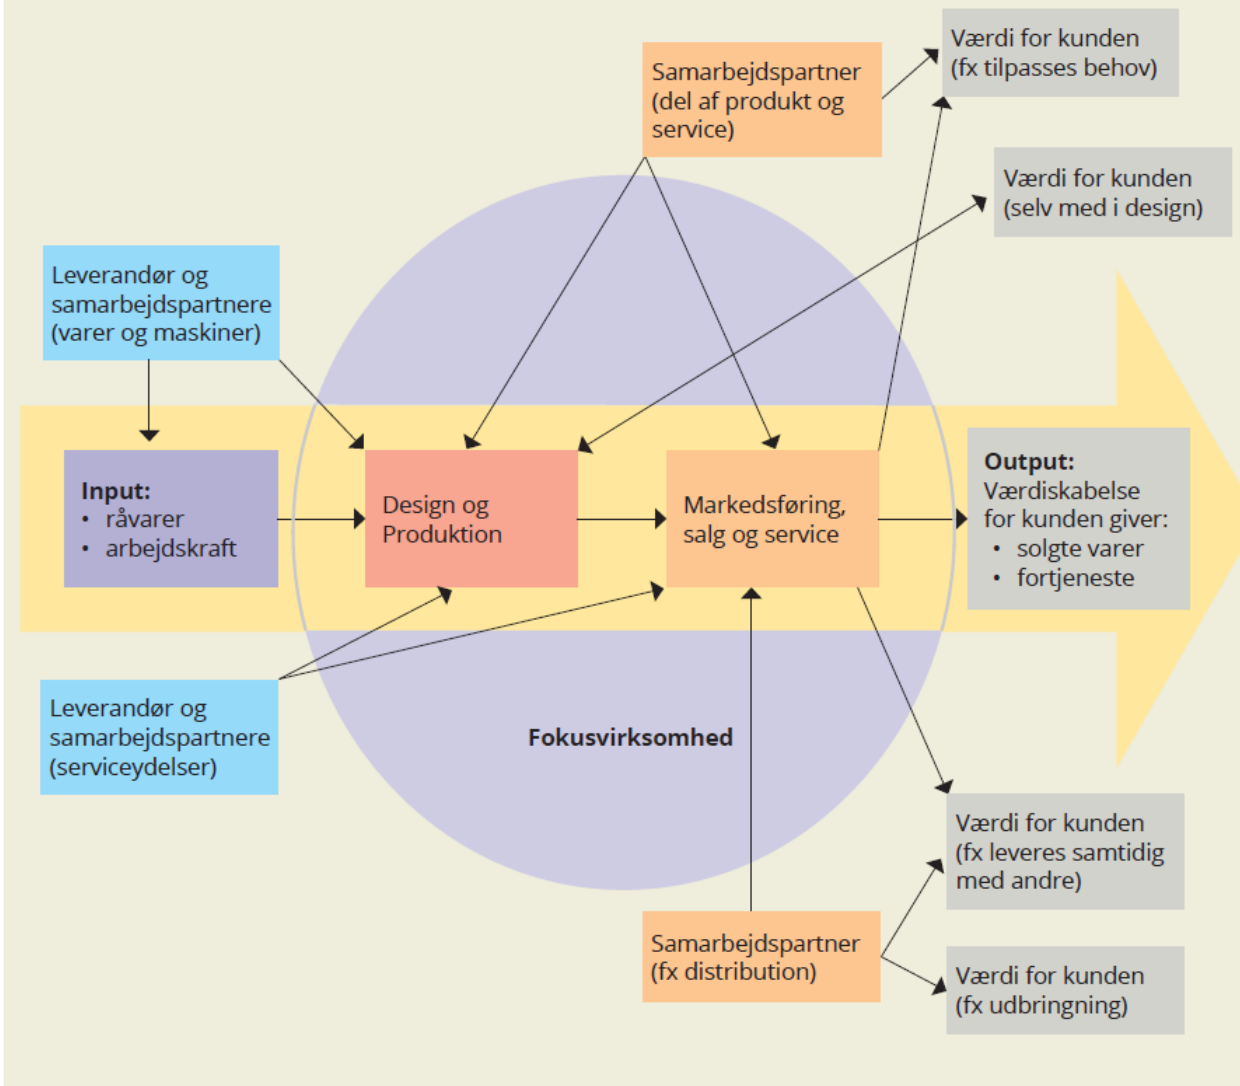

Goal Has to be S.M.A.R.T.

In the strategic plan Goals are needed when communication goes from CIO to chiefs and departments and employees.

It is simple to recognize a goal and easier to move that from a strategic level, to a tactic level and from there to the employee at the operational level!

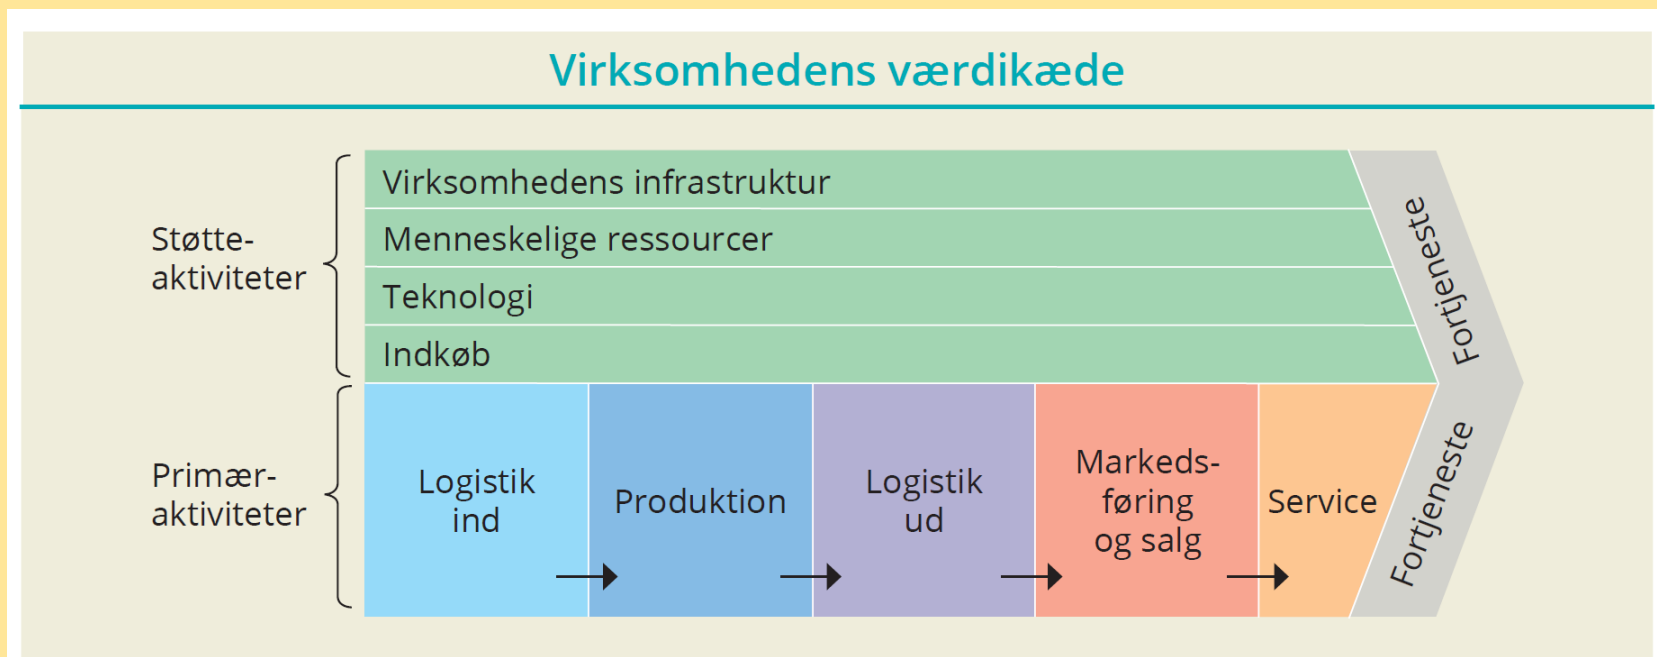

Note: Goals often are for internal use ONLY!
Where as mission, vision and values are the makers that we want to show the world – this is the CORE of an organization – the Brand itself.

Værdikæden og værdiskabelse for kunderne

Figur 2.1 Værdikæden og værdiskabelse for kunderne.

Porters værdikæde

Businessmodel Canvas

1. Sammenspillet mellem de tre nøglefelter er grundlaget for skabelsen af kundeværdien
2. Sammenhængen mellem skabelses af kundeværdi og kundesegment ses i en særlig figur om værdiskabelse (vises om lidt 😊)
3. Her skal vi afstemme kundens forventninger (igen for at skabe værdi for kunden)

Figur 2.3 Business Model Canvas eksemplificeret med Aarstiderne A/S.⁵

Kilde: Osterwalder & Pigneur: Business Model Generation, 2010.

When will you use this model?

BUSINESS MODEL CANVAS NETFLIX

Key Partners

- Alliances with Smart TV companies
- alliance with gaming industry
- TV network companies
- Google and Amazon

Key Activities

- Hire and retain
- Maintain and expand
- Produce, acquire and license
- Develop its pricing strategy
- retain current customer base

Key Resources

- Software developers
- Recommendation system (algorithm)

Value Propositions

- Users can stream 24-7, minus the ads
- View shows & movies in high-definition
- Stream content conveniently anywhere
- unlimited access to TV shows and movies
- Netflix's original
- New signups can avail a 30-day free trial
- cancel at any time
- Receive algorithmic recommendation
- Avoid commercials ads

Customer Relationships

- Self-Setup Made Easy
- Exceptional Customer Experience
- Online Live Chat Services
- Social media
- Netflix gift Cards

Channels

- Online streaming through the website
- Streaming on TV Apps and Gaming consoles
- Mail delivery for DVDs

Customer Segments

- interested in watching movies, TV shows and documentaries
- content for children and adults

Cost Structure

- Major purchasing rights establishment (TV shows and movies)
- Cost of producing movies
- Cost for recommendations, R&D and artificial intelligence
- Subscription maintenance cost
- DVDs and mail-related shipping costs

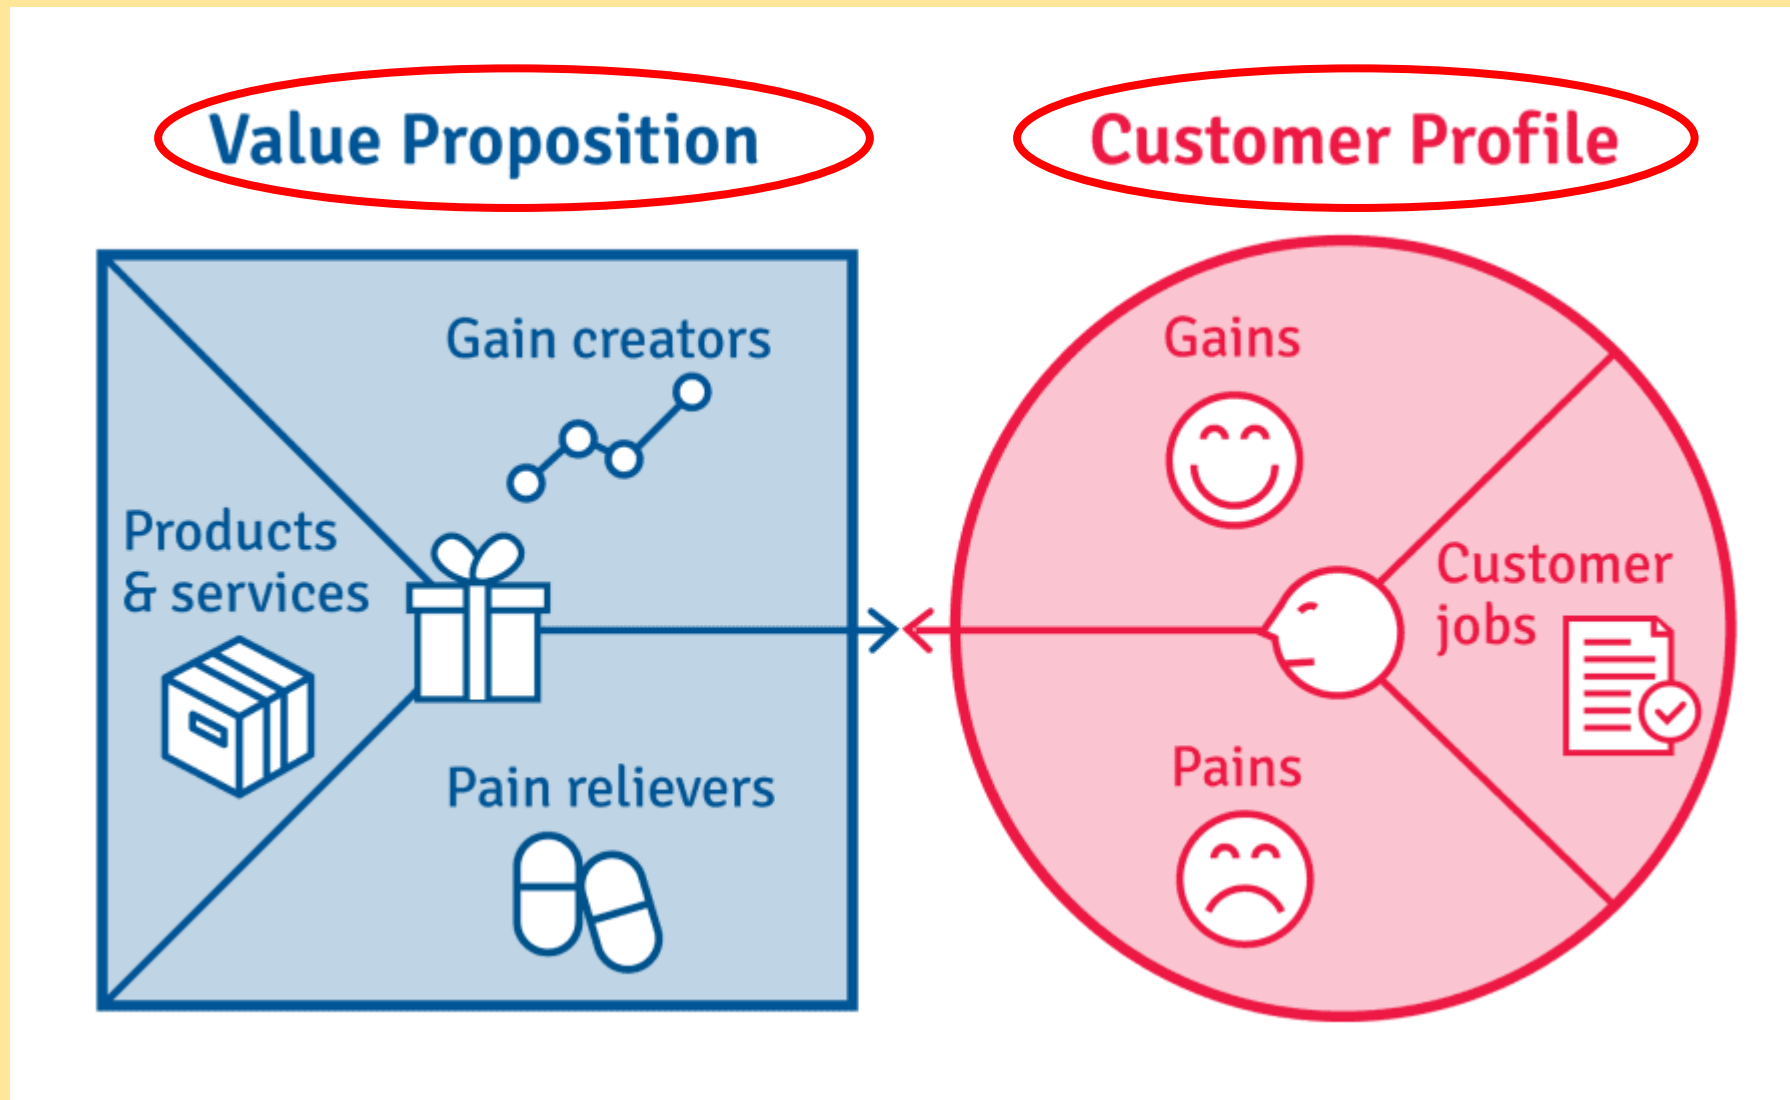

Revenue Streams

- Monthly subscription plans
 - Basic
 - Standard
 - Premium

Whenever...

- You start a company
- You are buying a company
- Reorganize your company
- Or simply just need to get the picture

Value Proposition Canvas

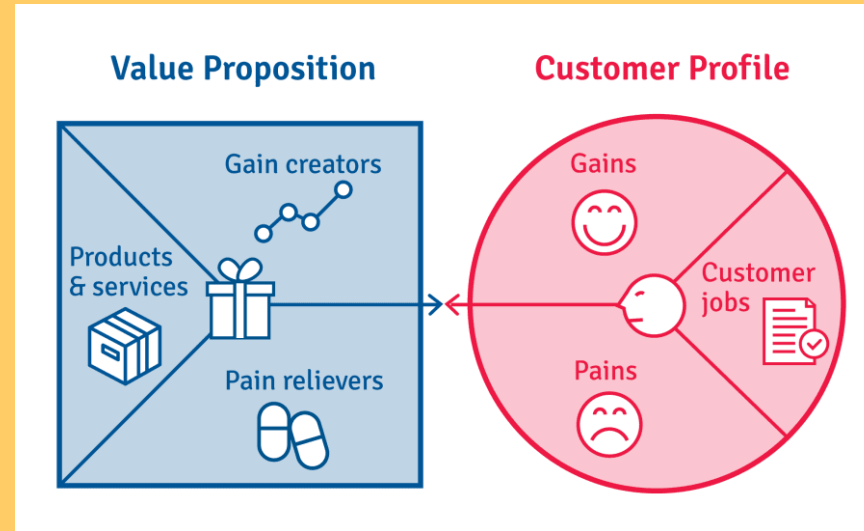

Øvelse: Kundeværdiskabelse

Prøv at tage afsæt i kundeværdiskabelse Canvas, som den fremstilles.

Vi ser på de tre faktorer der ligger hos kunden og som øger muligheden for et salg:

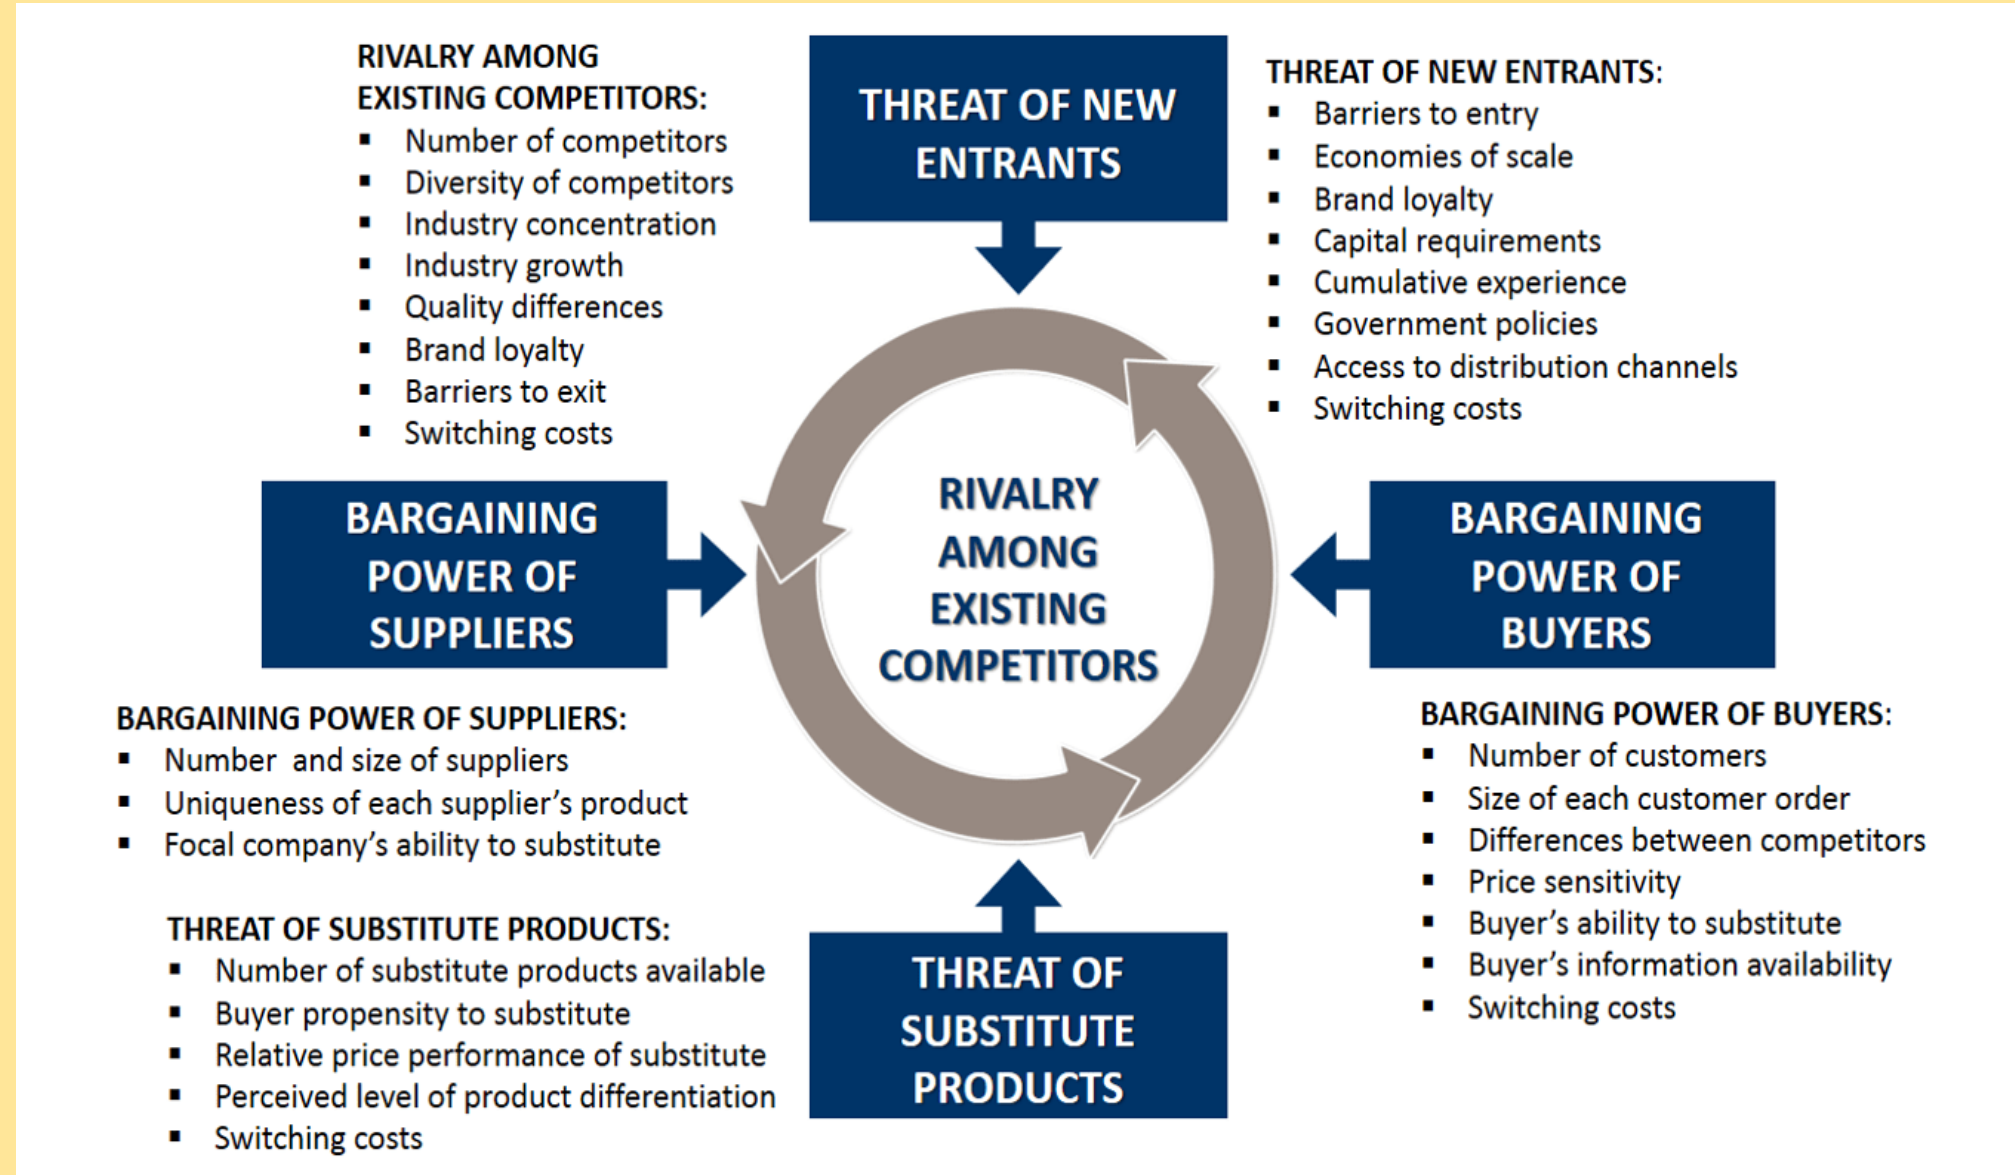

- **Gevinst**
- **Arbejde**
- **Smerte**

Prøv at undersøge nogle populære virksomheder (JustEat, Uber, Google...) Fra pain til gain!
Hvordan giver de os gevinst? Hvordan letter de "arbejdet" og hvordan mindsker de "smerte"

Refleksion: Med sådanne modeller, bliver det tydeligere at se hvad der foregår. **Hvad er varen/service der leveres?** Og som konkurrenter bliver vi skarpere på vores egen profil, og måske hvor vi kan ramme skiven endnu bedre 😊

Porters five forces

Sammenligning af forretningsmodel og strategiarbejde		
	Forretningsmodel	Strategiarbejde
Formål	Skabelse af kundeværdi	Fokus på overlevelse og udvikling
Samarbejde / konkurrence	Fokus på samarbejde med såvel partnere som kunder. Ofte er kunderne selv med til at skabe kundeværdien.	Fokus på konkurrencen på markedet. Her er konkurrenternes styrke og position på markedet vigtig.
Skabe værdi / anvendelse af ressourcer	Fokus på at skabe værdi i samarbejdet, så der bliver noget at vinde for alle parter.	Orienteret mod at kunne anvende ressourcerne bedst muligt både på kort og lang sigt.
Orientering mod omverdenen eller egen organisation	Netværksorienteret, fokus på at skabe gode relationer til partnere, leverandører og kunder.	Orienteret mod egen organisation og egen organisering.

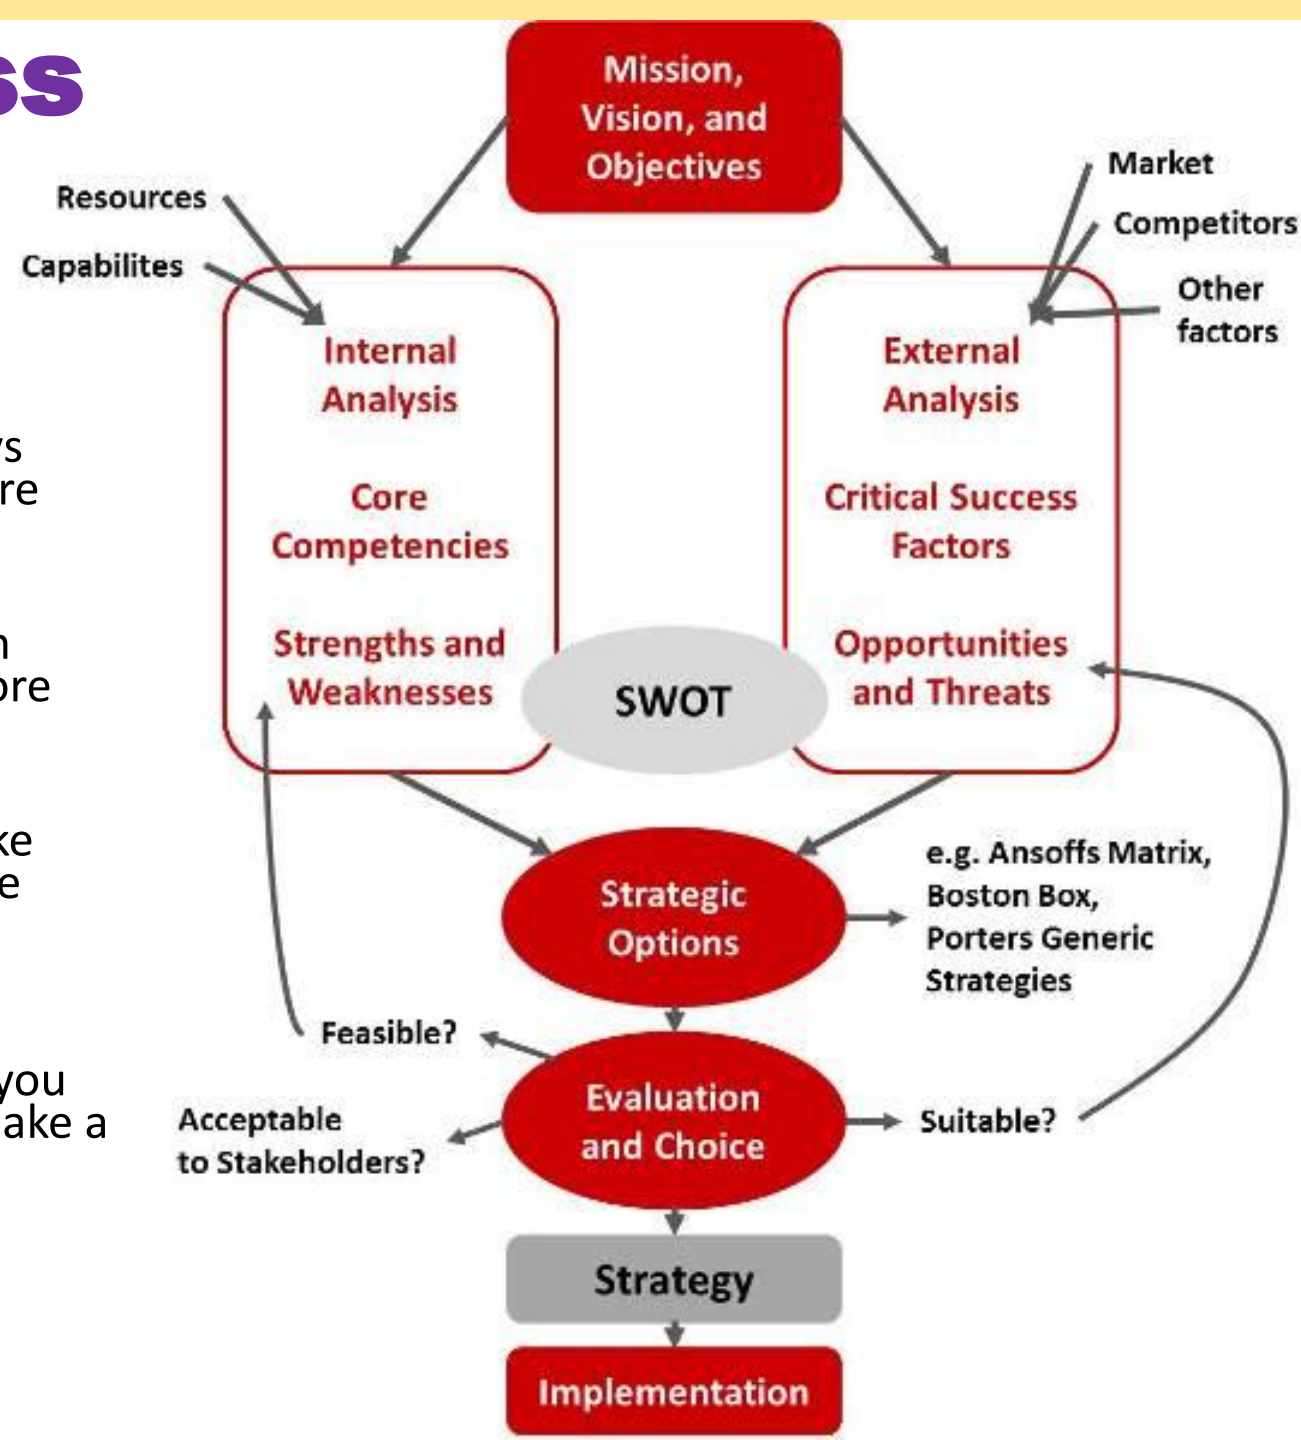

Figur 2.6 Sammenligning af forretningsmodel og strategiarbejde.

The Strategic Process

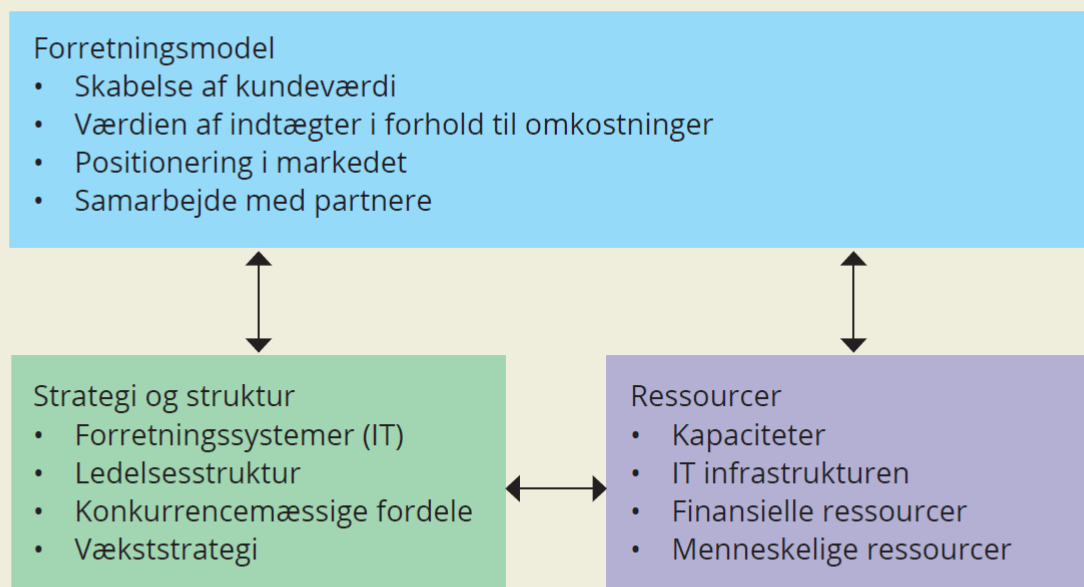

- Where are we?

An existing business evaluating or redefining ourselves?
Or are we at the very first step, of going in to business?

- Consider this: The toplevel in an organization will always have to re-define the organization within these three core topics: **Mission, Vision** and **Values**.
- These topics are what dreams are made of: Before even thinking about starting your own business, this is the core you have to define!
- Then comes the **Goals**, and here you would use tools like **swot- and stakeholder analysis** and for the competitive examine you could use **Porters five forces**. And when defining the goals Remember to be **S.M.A.R.T**
- And then, after you identified your product or services, you would come to the business-model. Now it is time to make a model of your business. You could use a **Canvas businessmodel** for that part of our analysis.

Sammenhængen mellem ressourcer, strategi og forretningsmodel

Elementer i en intern strategisk analyse			
Organisationsanalyse	Økonomisk analyse	Produkt- og sortimentsanalyse	Teknologisk analyse
1. Forudsætninger for at skabe værdi: • Forretningsmodeller (kap. 2) • Værdikædeanalyse (kap. 2) • Organisationens design (kap. 3) • Projektledelse (kap. 4) • Forandringer og innovation (kap. 5) 2. Daglig ledelse og udvikling: 1. Medarbejderudvikling (kap. 7) 1. Teamudvikling (kap. 8) 1. Lederkarakteristik (kap. 9) 1. Udvikling af kultur og etik (kap. 10)	Rentabilitet Indtjeningsevne Kapitaltilpasning Soliditet Likviditet	Analyse af livscyklus for produkter og services Anvendelse af handlingsparametre	Anvendelse af informationsteknologi i organisationens styringsprocesser Anvendelse af produktionsteknologi i organisationens fremstillingsproces

Figur 2.10 Elementer i en intern strategisk analyse.

Elementer i en ekstern strategisk analyse		
Samfund	Branche	Øvrige forhold
PEST-analyse: P: Politiske og lovgivningsmæssige forhold E: Økonomiske og demografiske forhold S: Sociale og kulturelle forhold T: Teknologiske og miljømæssige forhold. Arbejdsmarked: Fagforeningsstruktur	Porters branchestrukturmodel: • Kunder • Leverandører • Potentielle konkurrenter • Substitutter • Konkurrenceintensitet Konkurrentanalyser	Regionale, lokale forhold. Herunder forskellige subkulturer Organisationens placering i lokalsamfundet Netværk generelt

Figur 2.12 Elementer i en ekstern strategisk analyse.

Se PEST som et element (ligesom Porter's5) der indgår i en senere SWOT analyse

Mintzbergs 10 strategiskoler

Ser strategiudvikling som en erkendelsesproces, hvor det handler om at opnå et "fit" mellem organisationens interne evner og eksterne muligheder. SWOT-analysen ses meget anvendt her.

Priser i høj grad fordelene ved formel strategisk planlægning og bevæbner sig med formelle procedurer, træning, analyse og en masse tal. Bl.a. inspireret af Igor Ansoff.

Denne skole er kraftigt påvirket af Michael Porters ideer, der understreger, at strategi er afhængig af den måde virksomheden er positioneret i markedet og i branchen. Ser strategiudvikling som en analytisk proces, hvor det handler om at vælge den rigtige strategi blandt en begrænset mængde generiske typer.

Understreger lederens centrale rolle, som den der skaber strategien og har visionen. Det betyder, at strategien er fleksibel og kan tilpasses lederens oplevelser.

Undersøger, hvad der sker i hovedet på strategen og ser strategi som en mental proces, hvor der er plads til kreative fortolkninger. Strateger har selvfølgelig forskellige kognitive stile. F.eks. ekstrovert eller introvert, tænkende eller følende.

1. **Designskolen**
2. **Planlægningsskolen**
3. **Positioneringsskolen**
4. **Iværksætterskolen**
5. **Den kognitive skole**
6. **Læringsskolen**
7. **Magtskolen**
8. **Kulturskolen**
9. **Omgivelsesskolen**
10. **Konfigurationsskolen**

Ser strategi som en emergent proces. Dvs. at strategier opstår, efterhånden som folk bliver klogere på en situation og på organisationens evne til at håndtere den. På den måde bliver formulering og implementering sammenflettet.

Betrakter strategi som et resultat af forskellige magtspil både indenfor og udenfor organisationen. Forhandling er et centralt element i magtskolen.

Strategiskabelse ses som en proces, der har rod i kulturens sociale magt. Fokuserer på fællesinteresser og integration.

Fokuserer på de kræfter, der omgiver organisationen. Et firmas strategi afhænger derfor af begivenheder i omgivelserne og organisationens reaktion på dem.

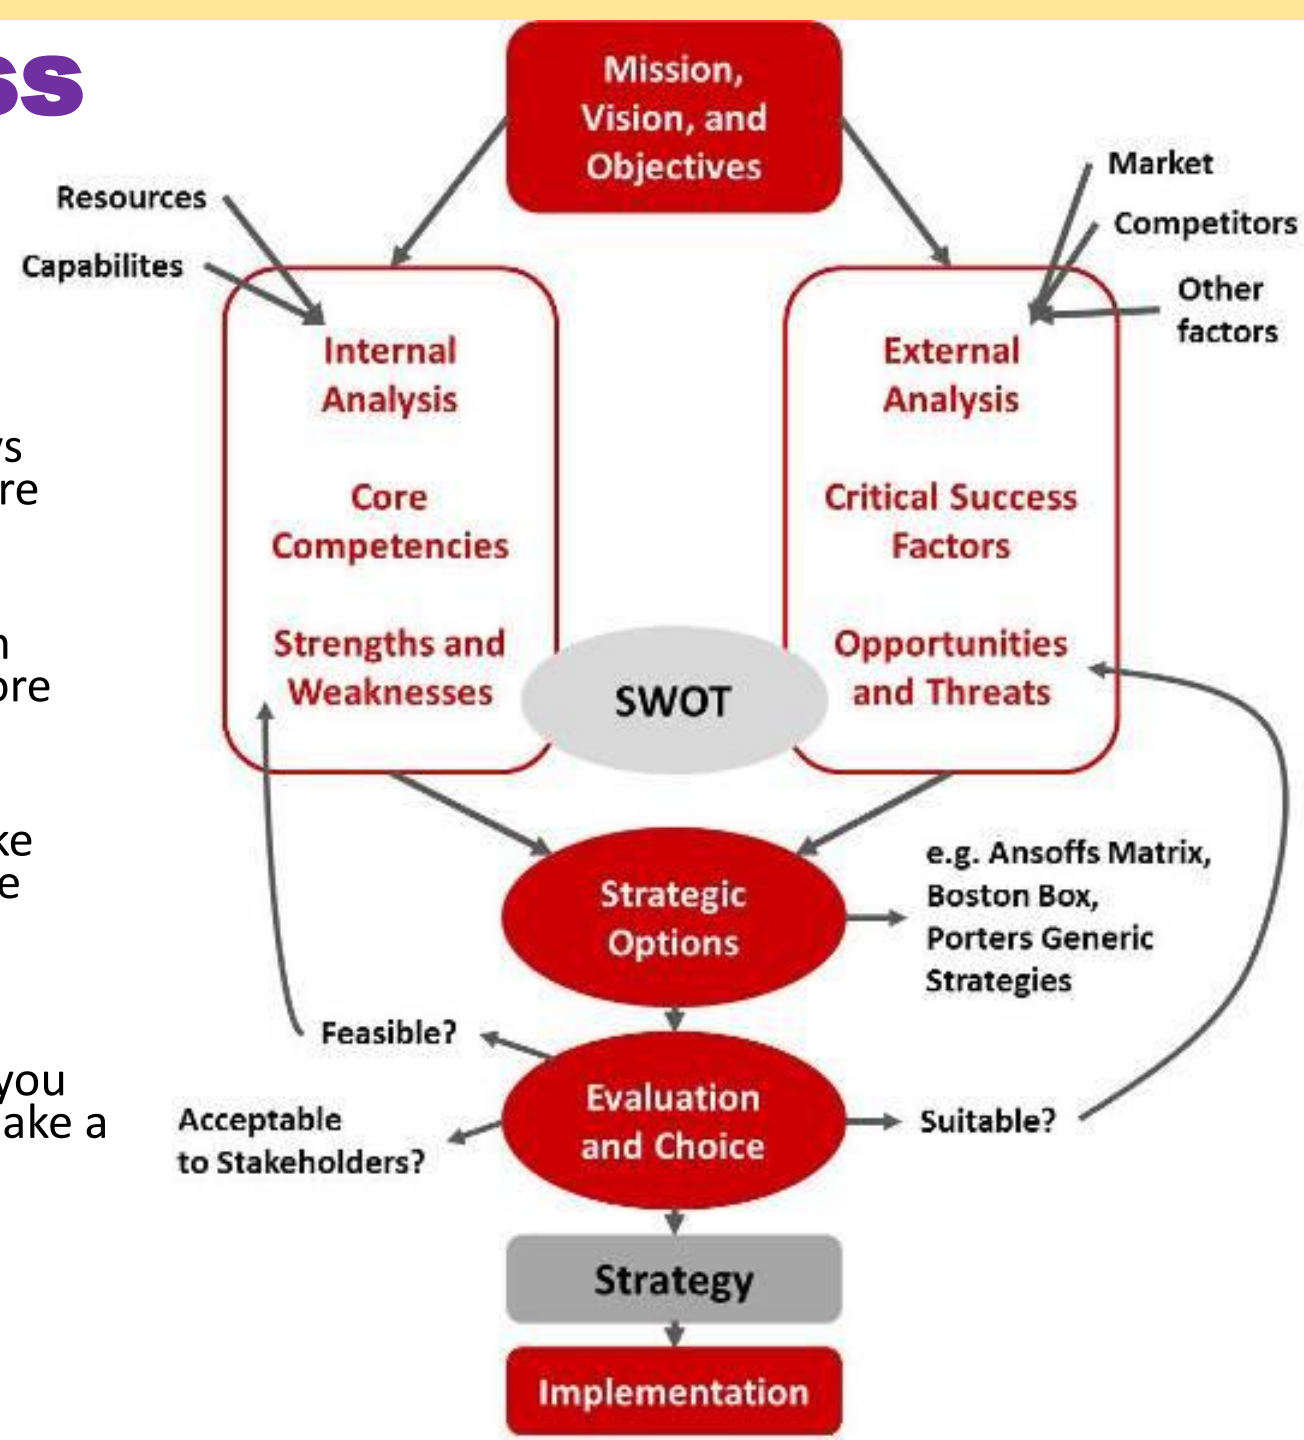

Ser strategi som en proces, der transformerer organisationen. Skolen beskriver strategiens relative stabilitet, som afbrydes af lejlighedsvis dramatiske spring til nye stadier.

The Strategic Process

- Where are we?

An existing business evaluating or redefining ourselves?
Or are we at the very first step, of going in to business?

- Consider this: The toplevel in an organization will always have to re-define the organization within these three core topics: **Mission, Vision** and **Values**.
- These topics are what dreams are made of: Before even thinking about starting your own business, this is the core you have to define!
- Then comes the **Goals**, and here you would use tools like **swot- and stakeholder analysis** and for the competitive examine you could use **Porters five forces**. And when defining the goals Remember to be **S.M.A.R.T**
- And then, after you identified your product or services, you would come to the business-model. Now it is time to make a model of your business. You could use a **Canvas businessmodel** for that part of our analysis.

	Nuværende produkter	Nye produkter
Nuværende markeder	Markedspenetrering ▶ Øget salg til nuværende kunder ▶ Større markedsandele ▶ Flere forbrugere fra målgruppen vælger produktet	Produktudvikling ▶ Nye produkter til nuværende kunder ▶ Produktforbedringer og udvikling af nyere generationer af produkterne
Nye markeder	Markedsudvikling ▶ Salg til nye kundegrupper (segmenter) ▶ Geografisk spredning	Diversifikation ▶ Udvikling af nye produkter til helt nye kundegrupper ▶ Opkøb af virksomhed i en anden branche

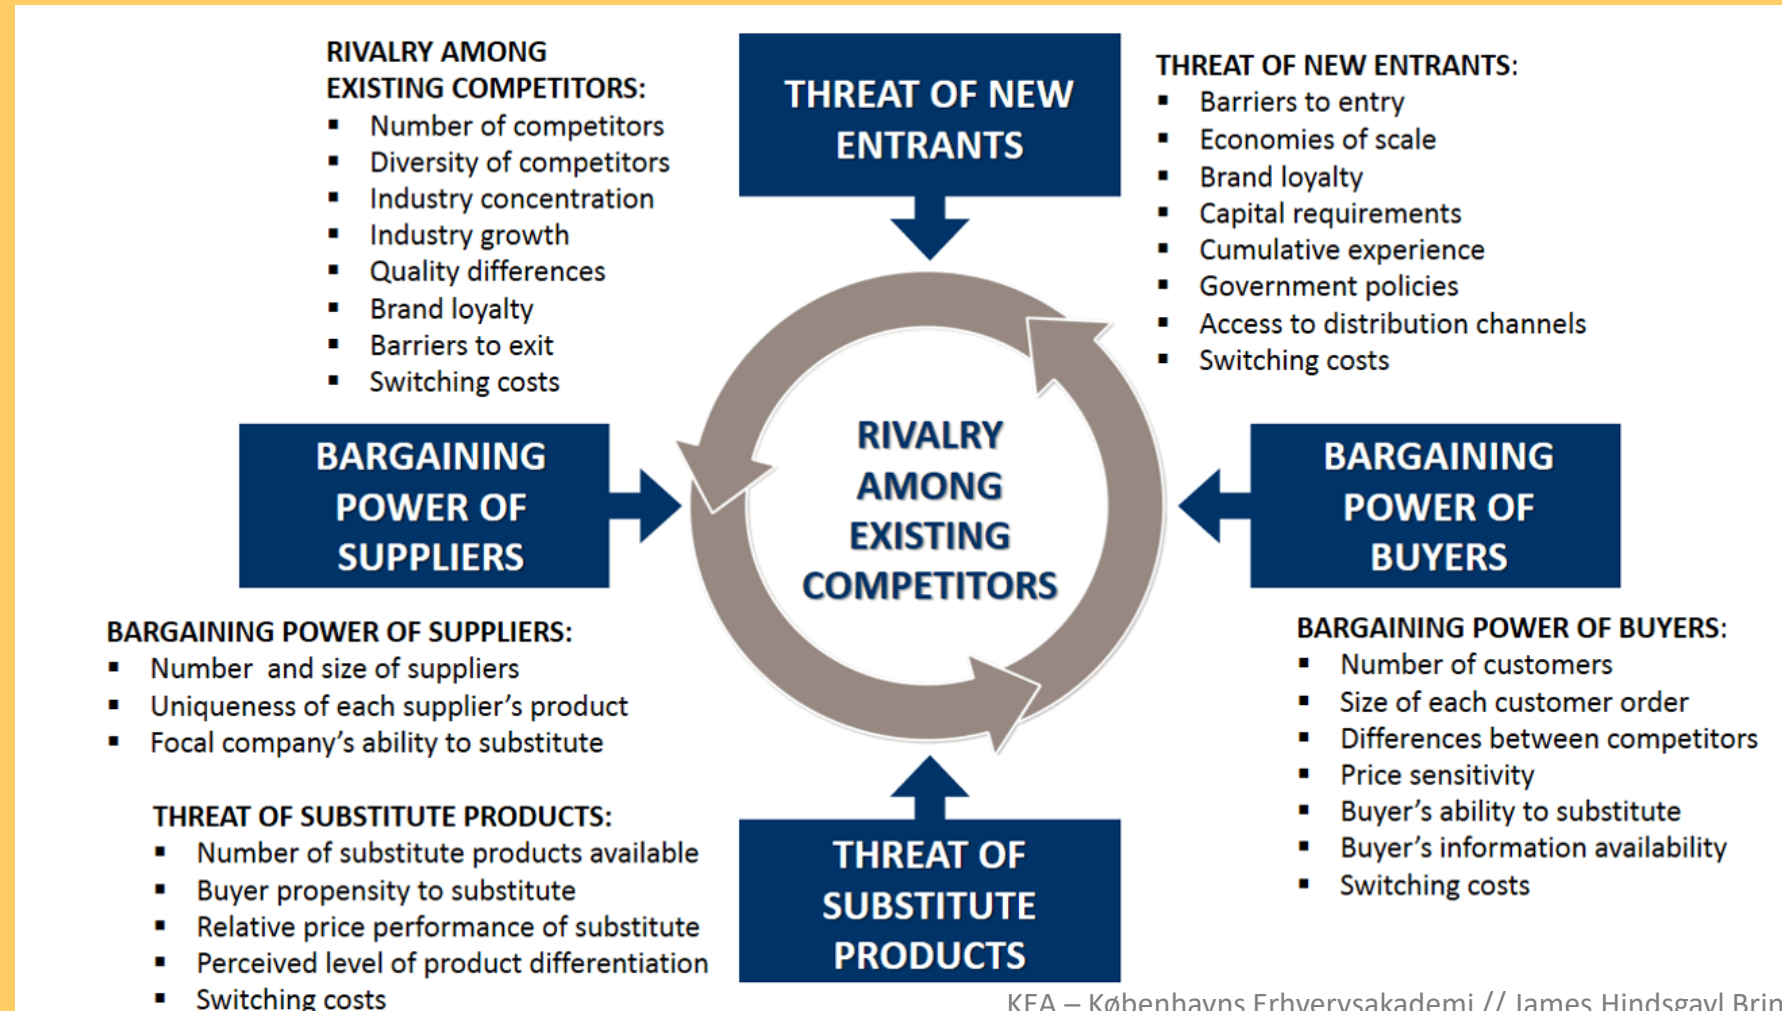

Figur 10.18 Ansoffs vækstmatrice

Exercise: Use Porters five-forces model

Examine Googles new action on the market for movies and music

(The company usual offers services for free – by selling information about the customers.
Now the company want to sell music as well as movies on their platform, called youtube)

NOTE: Here we are just focusing on the new five-forces model. Normally we would naturally (of course 😊) use our skills and perform **SWOT- and Stakeholder-Analysis** as well!
